Second giCASES Dissemination Seminar/Workshop
Case-based collaborative learning in the geospatial field
19 January 2017
Faculty Club, Leuven

giCASES is a Knowledge Alliance project under the Erasmus+ programme of the European Commission. The project aims to enable and strengthen innovation in GI education and industry and to facilitate the collaborative creation, management and sharing of knowledge. These objectives are addressed by developing new, innovative and multidisciplinary approaches to teaching and learning within the Geographic Information (GI) sector, and by facilitating the exchange, flow and co-creation of this knowledge.

Objectives of the event

The seminar will bring together representatives from the consortium partners; giCASES advisory board members representing the academic sector (AGILE), the mapping agencies (Eurogeographics) and private sector (Technological Parc ComoNEXT); representatives from private companies active in the geospatial field, the European Commission, similar projects and other organisations.

The objectives of the event are:

- To present and discuss examples of case-based collaborative learning in the geospatial sector;
- To present different perspectives on collaborative and case-based learning including insights and views from private companies, the European Union, the mapping agencies;
- To discuss and agree upon the key-concepts of the giCASES project: collaborative and case-based learning, co-creation of knowledge and how those will be applied in the seven case studies of the project;
- To exchange ideas on the approach for the different case studies.

Venue

Faculty Club, Groot Begijnhof 14, 3000 Leuven, Belgium
For more information, see: <http://www.facultyclub.be/en/>

Time

Thursday 19 January 2017, 9:30-15:00

Registration

By sending an e-mail to danny.vandenbroucke@kuleuven.be
There is no cost for attending the seminar, coffee breaks and lunch are included.

Agenda

09:30-09:45	Registration and welcome	
09:45-10:05	Introduction to the giCASES project: an overview of the ongoing and planned activities	Milva Carbonaro and Giorgio Saio (GISIG)
10:05-10:25	Knowledge Alliances impact and overview of the selection 2016	Gilles Gervais (EC – EACEA)
10:25-10:45	Example of collaboration in higher education: internships in the geospatial industry	Jos Van Orshoven (KU Leuven)
10:45-11:15	Coffee break	
11:15-11:40	The need for education and training in the context of the Copernicus programme	Emanuele Barreca (DG GROW) - TBC
11:40-12:05	Collaborative learning and co-creation of knowledge: a view from a small geo-ICT company	Dirk Frigne (geosparc)
12:05-12:30	The perspective of the mapping agencies with regard to geospatial education and training	Ingrid Vanden Berghe (NGI-BE and EuroGeographics)
12:30-13:30	Lunch	
13:30-13:55	The proposed approach on case-based learning and co-creation of knowledge in the giCASES project	Ander Östman (NOVOGIT) and Marco Minghini (POLIMI)
13:55-14:45	Discussion in 3 smaller groups 3 case studies will be introduced briefly and discussed (questions to be answered will be provided at the beginning of the workshop) Group 1: Maria Bovelli (POLIMI) Group 2: Kornel Czimmer (UniWH) Group 3: Marco Painho (NOVAIMS)	All participants
14:45-15:00	Plenary: wrap-up and conclusions	Danny Vandenbroucke (KU Leuven)
